- Examined engines, transmissions and vehicle systems to diagnose issues.
- Inspected and adjusted brakes, steering systems and wheel bearings to address related issues.
- • Collaborated with other mechanics to inspect diesel engines for signs of damage.

ADDITIONAL RECOMMENDATIONS

SKILLS
- **Programming Languages: Java, C++, Python**
- **Web Development: HTML, CSS, JavaScript, React**
- **Database Management: SQL, MongoDB**
- **Network Administration: Cisco routers and switches, TCP/IP, DNS**
- **Cloud Technologies: AWS, Azure**

- **Achievements:-**
  - **Successfully obtained AWS DevOps Engineer certification, showcasing expertise in deploying and managing applications on AWS cloud infrastructure.**
  - **Attained AWS Certified Developer certification, demonstrating proficiency in developing and maintaining applications using AWS services and technologies.**
  - **Earned Microsoft Azure with AI certification, validating skills in implementing and leveraging AI technologies within the Azure ecosystem.**
  - **Applied DevOps principles and practices to optimize software development processes, resulting in increased efficiency and reduced time-to-market.**
  - **Implemented cloud-based solutions using AWS and Azure, leading to improved scalability, cost-efficiency, and reliability of IT infrastructure.**

- **Address language proficiency**
  - **Bilingual Skills: Fluent in English and Telugu. Proficient in both written and verbal communication, enabling effective collaboration with diverse teams and stakeholders.**
  - **Multicultural Communication: Successfully bridged language and cultural gaps in cross-functional teams, facilitating smooth communication and fostering a collaborative work environment.**

- **Remote work experience:**
  - **Maintained network hardware and software and monitored the network to support network availability to end users.**
  - **Developed and documented network policies, procedures, and standards.**
  - **Responded to support requests from end-users and patiently walked individuals through basic troubleshooting tasks**
  - **Worked directly with clients in the rollout and post-rollout stages to train and support new applications and systems**

- **Personal projects:**
  Streamline IT Operations
  Cloud Migration and Optimization
  Talent Development and Rete
